

## E-Education

Teaching with help of electronic resources is known as E-learning. The computers, internet, smart phones, tablets; etc. devices take an importance place in the classrooms for e-learning. E-contents offer the ability to share material in all kinds of formats such as videos, slideshows, word documents, and PDFs. Conducting webinars (live online classes) and communicating with teachers via chat and message forums is also an option available to students. It is also helpful for the teachers to deliver their lessons with efficient way. E-contents have a number of tools such as videos, PDFs, podcasts, and teachers can use all these tools as part of their lesson plans. The students can learn with self-paced and choose their own learning environments.

A large number of E-contents are available for access through various links. A brief description of these resources including the Subject Coverage, Search Features, Document Category, etc. are available through more information for the help of users. The given URL Address directly takes to the concerned database.
